

Dear Sir,

Fischbein wants to give you some information about its activities:

1. **Who is Fischbein ?**

Fischbein S.A. belongs to Fischbein LLC, an American company with the main manufacturing site in North Carolina. The Brussels Headquarters, which were created in 1956, are dealing with the assembling, distribution and marketing of a large range of machines and equipment for Europe, Africa and the Middle East :

- ◇ **open mouth bag closing machines** (for jute, burlap, cotton, paper, multi wall paper, polyethylene, woven or non woven polypropylene, net bag, lined/coated papers and foils, laminates)
 - ***by sewing***: portable bag closers, mini sewing systems, sewing heads, industrial sewing systems, high speed sewing systems, dual heads systems
 - ***by hot melt gluing***: exclusive Double Fold Closer equipment and other techniques even for pinch pre-glued bags.
 - ***by sealing***: from manual to industrial production. Modular, cost effective sealers can close a large variety of bags (PE complex or co-extruded, laminates, with an inner liner,...) in industrial versions by hot air or with bands or radiant (through paper)
 - ***by combined means***: combining two of these previous techniques or even applying a reactivated tape over sewing or sealing.
 - ***for***:
 - manual production
 - semi-automatic production
 - automatic production
 - high speed production
- ◇ **accessories**: to complete the bagging lines like bag top formers (with bag stop or moving along), tag dispenser, conveyors (Fischbein multiway or belt technical conveyors or standard conveyors), bag kickers, bag pushers and bag turner.
- ◇ Fischbein S.A. also distributes the **consumables** related to the above mentioned machines:
 - PE coated paper
 - Needles
 - Hot Melt glue
 - Wax
 - Oil
 - Genuine spare parts stamped with Fischbein logo
 - Sewing thread:

- White
- Coloured thread
- Filler cord
- Crepe paper
- Easy open tape

2. **Who are Fischbein's potential customers ?**

All industries dealing with open mouth bag closing:

“Your bag closing problem is ours!!”

Agriculture:

- Potatoes
- Rice
- Sugar
- Flour
- Grain
- Seeds
- Corn
- Vegetables

Petfood and animal feed

Chemicals:

- Pesticides
- Urea
- Sulfur
- Plastic
- Fertilizers
- Potash
- Soap
- Granules
- Additives
- Explosives
- detergent

Building materials:

- Cement
- Decorative stones
- Tile glue
- Plaster
- Premixes

Food:

- Premixes
- Frozen products
- Candies
- Milk powder
- Chocolate
- Spices
- Coffee
- Dairy products

Minerals:

- Clay
- Coal
- Salt
- Sand
- Gravel
- Cat litter

- Tea
- Meat
- Cocoa
- Noodles

Pharmaceuticals and medicals:

- Cotton wool
- Syringes
- Medical products
- Cosmetic products

Others:

- Charcoal
- Ice cubes
- Small tools
- Screw, bolts
- Cork
- Sawdust
- Flax
- Cotton

3. Fischbein's policy

To become **"Your reliable Partner for Bag Closing"**.

By commitment through:

- ***Solutions*** to your specific bag closing requirements from extensive range of quality equipment.
- ***Development*** using the latest proven technology to continue leading the field.
